UML

General Linux and
Windows experience

education

- 2014-2017 **Bachelor of Science** [Jacobs University Bremen](#)
Computer Science Major, expected graduation 2017.
- 2005-2013 **Student at MHSM Plovdiv** [Model High School of Mathematics Plovdiv](#)
Specialization in Mathematics and Informatics.

experience

- 2015 **Research Assistant at DFKI GmbH** [DFKI Robotics Innovation Center](#)
Developing software for robots, as part of project [TransTerra](#)
from 15/06/2015 to 30/08/2015
- since 2008 **Programming Competitions**
Competitive programming was what got me interested in Computer Science.
- Participated in over 20 national competitions in Informatics
 - Attended national training camps to further develop my understanding of algorithms.
 - Represented Jacobs University at [NWERC](#) 2014 and 2015. [Linköping, Sweden](#)
- 2010-2013 **Tutor in Informatics** [Model High School of Mathematics Plovdiv](#)
I held regular tutorials, covering most problem-solving techniques used in competitive programming, with the goal of preparing younger or less experienced students for competitions.

awards

- 2015, 2014 **Two-time winner of Plovdiv Game Jam** [Global Game Jam](#)
Part of the Global Game Jam event, the Plovdiv Game Jam is a 48-hour hackathon dedicated to video games. Teaming with my friend and graphical artist Bernar Aganchyan, we took the first place by public voting in both the 2014 and 2015 editions of the hackathon.
- As winners, we were sponsored by Gameloft to attend the [A Maze Game Development Festival](#) in Berlin.
from 22/04/2015 to 25/04/2015
- 2013 **National Laureate in Informatics** [Bulgaria](#)
A title, given by the Ministry of Education and Science upon graduation from High School, for achievements in Informatics. Granted to only the top students in the country, it can also be used to enroll in any public university in Bulgaria without an exam.
- 2009 **First Place, National Competition in Informatics** [Varna, Bulgaria](#)

interests

professional [networking, algorithms, video games, linux, security, web development];

personal [volleyball, design, philosophy, art appreciation, tinkering];
